

Cygnit Online Backup Solutions for your servers, desktops and laptops

Use our powerful online backup services to safeguard your valuable data

Data is the lifeblood of your company

43% of U.S. companies experiencing data disasters never re-open, and 29% close within 2 years. The loss of revenue for each hour of downtime varies from industry to industry.

Don't wait to find out your 'cost of downtime'!

You should ideally back up your data offsite, to a dedicated backup server that's managed 24/7 at a secure datacenter.

Our **managed online backup solutions** will help you get up and running after any data disaster.

Service Highlights

- Intuitive & user friendly interface works from within your browser!
- Backup workstations & servers
- Backup all kinds of data: documents, emails, Exchange, SQL, etc
- Military strength (up to 448 bit) encryption of your data before it leaves your machine!
- Powerful compression
- Intelligent backup of changed data only – after the first backup

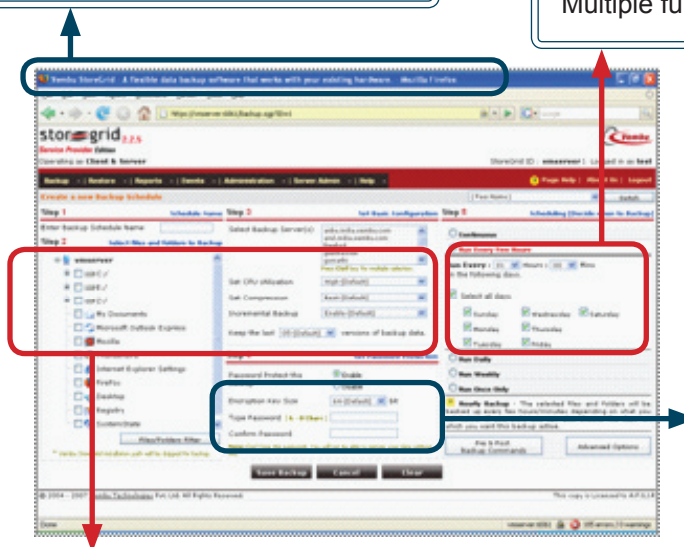

Operating system support

- Windows desktop (including Vista) & servers
- All common flavors of Linux
- Mac OS X 10.x
- FreeBSD 5.4 and above

Schedule anytime

Schedule your backups as required:

- Continuous
 - Every few hours
 - On particular days at particular times
- Multiple full backups also supported

Unbreakable security

- Powerful encryption to prevent unauthorized access (even we can't access your files unless you provide the password).
- Up to 448 bit encryption based on the proven Blowfish algorithm.

Feature-packed data backup

- Automatically detects changes in files and/or directories and backs up accordingly.
- Mobile(laptop)users' data can be backed up immediately as they connect to the LAN.
- Hot links provided for MyDocuments, Favourites, etc
- Incremental backups supported: backs up only changes in files and not the entire file every time. This saves bandwidth and time.
- Quick restore capability: end users can easily restore their data up to the file level.
- Easy & powerful backups for MS Exchange Server, MS SQL Server & MySQL

Don't wait to find your cost of downtime - Backup your data now!
